01 / COMPANY OVERVIEW

# Built around business IT.

A broad product and service portfolio for procurement teams, IT departments and business owners.

ITCHAMPX is a Lahore-based IT hardware and solutions company supporting organizations with the technology they need to operate, connect and grow. From everyday office accessories to servers, secure networks and complete infrastructure deployments, we bring supply and technical services together through one point of contact.

**SUPPLY / DEPLOY / SUPPORT**

Engage us for a single purchase, an office rollout, an infrastructure upgrade or a defined ongoing support requirement.

04 / WORKING WITH PROCUREMENT

# Clear scope. Clear delivery.

Flexible engagement for one-off purchases, project requirements and repeat procurement.

1

## Share your requirement

Send a bill of quantities, model list or business need. We review specifications, quantities, compatibility and delivery location.

2

## Review the quotation

Confirm the proposed models, equipment condition, pricing, availability, warranty terms and delivery schedule.

3

## Confirm the order & scope

Agree the purchase order, payment terms, responsibilities and any installation or support deliverables.

4

## Receive, deploy & hand over

Coordinate delivery and agreed implementation, functional checks, documentation and support arrangements.

### VENDOR REGISTRATION

Company and tax details appear on page 2. Contact M. Bilal Kashif to coordinate your vendor forms, quotations and supporting documentation requirements.
